

Family Caregiver Support Program & Grandparents Raising Grandchildren Program

Who we are:

High Country Area Agency on Aging is one of 16 regional government agencies across North Carolina that provides services and supports for older adults and their caregivers. The **Family Caregiver Support Program** is designed to provide support for caregivers of older adults so they can provide quality care in the home for longer and thereby avoid costly institutional care. The **Grandparents Raising Grandchildren Program** is designed to assist caregivers of minor children and adults with disabilities. Through these programs, we are hopeful that our communities can continue to work together to help older adults and their caregivers!
