Stephanie Stewart - Land of Sky Area Agency on Aging  
Kim McCullough, Ph.D. - Appalachian State University  
Mark Hensley - North Carolina Division of Aging and Adult Services  
Julie Dollar - Vaya Geriatric and Adult Mental Health Specialty Team

**Keynote Speaker: Lanier M. Cansler, CPA** Lanier brings over 39 years of experience working with the healthcare industry and in healthcare policy development and implementation at the state government level. Having worked as a consultant, legislator, and North Carolina Department of Health and Human Services Secretary, Lanier has worked closely with state leadership and leadership in healthcare provider organizations, identifying opportunities and developing strategies to enhance the ability of the State to move toward a more comprehensive approach to care while enhancing management of the State's Medicaid program. His understanding of the healthcare delivery system, coupled with his knowledge of the issues and challenges facing state governments, provides a significant benefit in the planning and implementation for healthcare system reform and the use of technology and analytics in establishing a more comprehensive, effective, and efficient approach to care that can coordinate critical aspects of the health and human services systems.
