

HIGH COUNTRY CARE TRANSITIONS

SUMMIT

Friday, September 21, 2018
Grandfather Golf & Country Club
Linville, NC

REGISTRATION IS OPEN!

highcountryaging.org

Target Audience: Hospitals, clinical health and home health providers, long term care facilities, community-based service providers, mental health care providers, transportation and housing agencies, EMS and rescue squads, police and sheriff departments, fire departments, pharmacies, consumer advocates, faith-based organizations, local government agencies, and other community-based organizations interested in improving person-centered quality services and support for health care transitions.

Keynote Speaker: Marc Malloy – President and CEO Healthy State, Inc. Marc has over 25 years of experience in the healthcare industry and currently serves as President and CEO of Healthy State, Inc., a wholly owned subsidiary of Mission Health ("Mission"). Marc joined Mission in April of 2014 to lead the health system's efforts for Population Health Management. In May of that year Mission Health Partners ("MHP") was formed as a legal entity; by July, approximately 260 primary care physicians had joined the network. MHP filed for a contract with the Centers for Medicare and Medicaid ("CMS") under the Medicare Shared Savings Program which was December 2014. As of January 2015, MHP is accountable to CMS for delivering higher quality, lower costs and integrated care to 42,000 Medicare Beneficiaries, as well as 18,000 employees and dependents of Mission Health System. Healthy State now markets health plan coverage options to employers, based on MHP's population health capabilities.

Prior to joining Mission, Marc was the CEO of Ascentia Health Care Solutions, the President of Healthways' Health Plan Markets, and CEO and Chairman of the Board for Coventry Health Care of Delaware and Maryland, and Head of Medical Economics for Aetna's Southeast Region. Marc has testified before the US Senate Finance Committee on Innovations in Health Care in which he described the successful strategies used by a group of 250 primary physicians in southeast Pennsylvania to deliver high quality, low cost healthcare. He and his Ascentia team led Renaissance Health Network to become the first Pioneer ACO under President Obama's Patient Protection and Affordable Care Act. Marc attended Kennesaw State University where he received his MBA with a concentration in Entrepreneurship and his BBA in Finance with a minor in Economics.
